Mr. Mark Miller  
Lockmasters  
2101 John C. Watts Drive  
Nicholasville, KY 40356

Dear Mr. Miller:

Based on Test/Evaluation number FF-L-2890B/LX-2017-02-LM, the Lockmasters Pedestrian Door Deadbolt locking products submitted for GSA approval against the requirements of Federal Specification FF-L-2890B have been determined to meet the specification requirements. The attached table will be added to the next revision of the Qualified Products List.

The listing applies only to products identical to the products qualified. GSA must be advised of any changes to the product. Failure to notify GSA of a change to the product is cause for removal from the QPL.

Periodically, GSA may require qualified manufacturers to submit a sample of the current product to ensure continued compliance with the specification requirements and qualification provisions. Failure to comply will be sufficient cause for removal from the QPL.

If you have any questions, please contact me at (703) 605-9256.

Sincerely,

A handwritten signature in cursive script that reads "Christopher Pollock".
