Kevin Moores
Lockmasters Inc.
Lockmasters Government/Industrial Product Manager
2101 John C. Watts Drive
Nicholasville, Ky. 40356

Dear Mr. Moores:

Based on Test/Evaluation number 2020GSA-009, the Lockmasters Pedestrian Door Deadbolt locking products submitted for GSA approval against the requirements of Federal Specification FF-L-2890C Types I, III, VII, IX, and X have been determined to meet the specification requirements.

Types II and IV remain approved based on previous testing.

The approval applies only to products identical to the products qualified. GSA must be advised of any changes to the product. Failure to notify GSA of a change to the product is cause for removal from the QPL.

Periodically, GSA may require qualified manufacturers to submit a sample of the current product to ensure continued compliance with the specification requirements and qualification provisions. Failure to comply will be sufficient cause for removal from the QPL.

If you have any questions, please contact me at (703) 605-9256.

Sincerely,

DocuSigned by:
Christopher Pollock
